In accordance with 37 C.F.R. §3.73(b), Assignee hereby certifies that the evidentiary documents with respect to its ownership have been reviewed and that, to the best of Assignee's knowledge and belief, title is in the Assignee seeking to take this action.

The Assignee hereby disclaims, except as provided below, the terminal part of the statutory term of any patent, as defined in 35 U.S.C. §154 and §173, granted on the present application which would extend beyond the expiration date of the full statutory term of the prior patent, and as the term of the prior patent is presently shortened by any terminal disclaimer.

The Assignee hereby agrees that any patent so granted on the present application shall be enforceable only for and during such period that it and the prior patent are commonly owned. This agreement runs with any patent granted on the present application and is binding upon the grantee, its successors or assigns.

In making the above disclaimer, the Assignee does not disclaim the terminal part of any patent granted on the present application that would extend to the expiration date of the full statutory term as defined in 35 U.S.C. §154 and §173 of the prior patent in the event that the prior patent later:

- expires for failure to pay a maintenance fee;
- is held unenforceable;
- is found invalid by a court of competent jurisdiction;
- is statutorily disclaimed in whole or terminally disclaimed under 37 C.F.R. 1.321(a);

- is reissued; or
- is in any manner terminated prior to the expiration of its full statutory term as shortened by any terminal disclaimer filed prior to its grant, except for the separation of legal title stated above.
